Preschool Child & Family Form

Please take some time to fill out some important information about your child and family. The information will assist us in gaining an understanding of your child, their family, and the community. We will use this knowledge to set individual goals for your child and it will inform planning for your child's learning. We aim to ensure your child feels nurtured, challenged, and excited to be part of the College community.

We aim to promote in all children a strong sense of who they are and their connectedness to others. This information will enable us to create links between your child's home experiences and school experiences.

At Preschool we believe that it is important that children feel they belong. Belonging acknowledges children's relationships with others. Children belong first to a family, a cultural group, a neighborhood, and a wider community. In early childhood and throughout life, relationships are crucial to a sense of belonging.

Please tell us about your family. Include your family's sporting/cultural activities, cultural heritage, interests of family members, extended family and friends, and pets.

'Being' recognises the significance of the here and now in children's lives. It is about the present and children's self-knowledge. The early childhood years are not solely about preparation for the future but also about the present. Please tell us about your child and his/her interests and

strengths.

'Becoming' reflects the process of rapid and significant change that occurs in the early years as young children learn and grow. We aim to set individual goals for each child at Preschool. Please tell us what your hopes are for your child this year and any goals you would like your child to achieve.

Is there any way in which you would like to be involved or included in your child's Preschool experience? Please list below any special skills or ways you would like to be involved.
